Feedback was requested from following stakeholders: 2021-2022

**Feedback Analysis of Stakeholders and Action Taken Report**

S.No	Stakeholder	Feedback	Action Taken
1.	Student	Use of video lectures for theory subject must be carried out.	Teachers are motivated for use of smart room and make their session more interactive.
		Need Add on Courses on latest engineering techniques.  The Assignments can be given in the beginning of the every chapter.	The institute is planning to identify special add on courses which can be offered to students as early as possible All the faculties are instructed to give all the assignment questions before the beginning of every chapter.
2.	Teacher	All the students should be motivated towards research. Also more and more projects must be performed as per the society's requirement.	The students are advised to take the projects which will help for the society. All the students doing project are advised for publication of research paper on their project topic.
3.	Alumni	More internship facilities are made available to students for better industrial exposure.	Necessary help was given to interested students to carry out internships in various organizations.
4.	Employers	Quality of curriculum and methodology of delivering education should be raised to a level which enables students to easily pass competitive exams and just studying is to be replaced with learning.	The institute advises faculties for using video lectures, ppts and webinars for effective learning.

## **ACTION TAKEN REPORT**

### **Report about Teacher on Curriculum:**

The College has made it a practice to conduct all faculty meeting, once in the starting of the semester, where the ways and means of enhancing the curriculum, academic discipline, teaching learning process and Research and Extension activities are discussed. During such meetings, the individual faculty members express their honest opinion on the curriculum: research and extension activities and the same would be debated and discussed. The appropriate suggestions are put forward to the respective councils for implementations. The faculty members get representations in the Board of Studies, Department Advisory Committee and Academic Council, where the staff members are getting ample opportunities to give feedback, on both curriculum and teaching learning process. Based on the feedback obtained, various industrial visits, guest lectures, value added courses and students workshops are organized to fill the gap in the curriculum.

### **Feedback analysis report:**

- curriculum covers advanced techniques and up to date
- Advanced topics have included
- Need more advanced lab
